#### TYPE

Distilled Gin

#### PRODUCTION AND TASTING NOTE

A premium gin crafted with exotic botanicals and strawberries for a smooth finish. Its exciting personality is the result of infusing it with strawberries during three distillations. Its unique sweetness, the vibrant strawberry and smooth finish obtained after a careful preparation.

#### ALCOHOL

37,5% Vol.

#### PERFECT SERVE

We recommend to serve the Gin & Tonic in a balloon glass, decorated with strawberries. The strawberries add a sweet and natural tone. We enjoy an attractive glass and a sophisticated drink with a sweet flavour.
